Doctor Profile

Dr Jom Jiao

MD, FAFRM (RACP) CLIN DIP Pall Med,
BOccThy

Dr Jom Jiao MD, FAFRM (RACP) CLIN DIP Pall Med, BOccThy is a rehabilitation medicine physician offering inpatient and outpatient rehabilitation services at Gold Coast Private Hospital and Robina Private Hospital. He specialises in helping patients restore their function after a disabling disease or injury. His aim is to optimise patient independence and quality of life.

Dr Jiao's path in medicine has always been centred in rehabilitation. He completed an undergraduate degree in occupational therapy before pursuing medicine. He undertook his specialty training with the Australasian Faculty of Rehabilitation Medicine and has worked in both public and private hospitals in Queensland and New South Wales and has over 15 years of clinical experience.

He believes that illness or injury does not only affect the patient physically but also impacts on their families, mental health, work and lifestyle. He works with a team of highly skilled health professionals such as physiotherapists, occupational therapists, nurses, social workers, psychologists, other allied health professionals to provide a holistic multidisciplinary approach. Together with his team, Dr Jiao aims to help patients achieve meaningful goals optimising safety, independence, function, and quality of life. He values the collaborative approach with primary care providers and welcomes collegial discussions to provide the best care tailored to the patient's needs.

Dr Jiao is a senior lecturer at Griffith University and enjoys teaching medical students and junior doctors. He is also a member of the Rehabilitation Medicine Society of Australia and New Zealand (RMSANZ) and Australian Association of Musculoskeletal Medicine (AAMM).

He specialises in the following conditions:

- Neurologic conditions:
 - Stroke
 - Spasticity
 - Parkinson's disease
 - Multiple sclerosis
 - Torticollis/Cervical dystonia
 - Functional Neurologic Disorder (FND)
 - Cerebral Palsy
 - Traumatic and acquired brain injury
 - Spinal cord injury
 - Other neurologic conditions
- Musculoskeletal conditions
 - Arthritis
 - Orthopaedic conditions
 - Sports injuries
